THE ORIGINAL
FROM MILAN
SINCE 1972

LTS 500 C is a semiautomatic press with a magnet lock which doesn't need a compressor.

It is particularly suitable for applying transfer materials and sublimation onto larger textiles.

The extricable lower plate allows an easy positioning of the fabrics and logos to print.

The lower plate of this model features a special silicone overlay and the upper heating plate has a teflon cover.

The automatic release of the upper heating plate and the precise adjustability of operating temperature, pressure, and time facilitate fast and safe work on all kinds of textiles.

The LTS 500 C is also available in 100 x 80 cm (LTS 510 C).

The perfect solution for heat transfers and sublimation printing on XXL-formats.

TECHNICAL DATA

Modello	LTS 500 C - LTS 510 C
Transfer area	LTS 500 C: 100 x 70 cm - LTS 510 C: 100 x 80 cm
Press size closed	LTS 500 C: 153 x 100 x 160 cm [b x h x d] LTS 510 C: 153 x 100 x 160 cm [b x h x d]
Press size with extracted lower plate	LTS 500 C: 218 x 100 x 160 cm [b x h x d] LTS 510 C: 223 x 100 x 160 cm [b x h x d]
Weight	LTS 500 C: 180 kg - LTS 510 C: 210 kg

Time - Temperature

Digital timer	0-99 sec
Temperature	0-230 °C

Pneumatic function

Contact pressure	0-400 g/cm ² · 2,5-8 bar
------------------	-------------------------------------

Connection - Consumption

Heating output	5400 W
Voltage	380V
